

SPLENDOR NC

Supporting, Promoting, and Launching the Expansion of Nutrition, Diabetes, and Obesity Researchers in North Carolina

PILOT AND FEASIBILITY PROGRAM

SPLENDOR-NC P&F PROGRAM

This program is designed to facilitate the success of diverse faculty engaged in research in the fields of nutrition, obesity and/or diabetes. These diseases disproportionately impact populations of color, and addressing these disparities are central to the mission of NIDDK.

ELIGIBILITY

- ✓ Post-doctoral fellows or early career faculty at one of the six partnering institutions (Duke, NCATSU, NCCU, UNC, WFU, WSSU)
- ✓ Research focus in the areas of nutrition, obesity, diabetes, and/or related areas.

FUNDING LEVELS

- **\$10K Career Development Awards:** Support publication charges, travel, coursework, and training opportunities.
- **\$10K Research Awards:** Support costs for equipment, lab supplies, and small pilot projects.
- **\$50K Applications:** Support for pilot studies to collect preliminary data for extramural grant applications.
